

- ✓ KILLS Corrosion ON Contact
- ✓ Prevents further Corrosion Degeneration
- ✓ Pretreatment or Post Exposure Application
- ✓ Easy & Safe to Apply
- ✓ Reduces Maintenance & Repair Costs
- ✓ Direct Reapplication means NO HAZMAT issue
- ✓ Non-Toxic / Low VOC EPA Compliant
- ✓ Protects against COMMON electrolytes (De-icing Fluids, Toilet Fluids, Acids, Road Salt, Soft Drinks, OJ, Coffee)

NUVITE CHEMICAL COMPOUNDS has been a leader in appearance maintenance products for more than 65 years. Our goal as a manufacturer and distributor is to provide the most advanced cleaning and appearance maintenance products available.

NUVITE is a division of UNIVERSAL PHOTONICS INCORPORATED, a manufacturer and global distributor of critical surfacing and polishing materials. UPI's dedication to innovative polishing materials supports NUVITE with state-of-the-art manufacturing facilities and an unwavering commitment to product development.

NUVITE customers can expect fast, dependable service and accurate technical assistance. Please contact our friendly account services team. They will expertly match your needs to a NUVITE solution.

ON CORROSION

ACF-50

ANTI CORROSION FORMULA

**THE COMPLETE
ANTI-CORROSION SOLUTION**

FOR:

- ✓ **Aerospace / Aviation**
- ✓ **Motorcycles / Automotive**
- ✓ **Power Sports**

PROTECTS • PENETRATES • LUBRICATES

ACF-50, a state-of-the-art, anti-corrosion lubricant compound, was specifically designed for the Aerospace / Aviation industries. Its ultra thin fluid formula acts like an "OFF SWITCH" for corrosion remaining effective for up to 24 months.

Regular treatments with ACF-50 reduce maintenance and repair costs, while improving overall safety and readiness.

HOW IT WORKS

ACF-50, a clean, clear ultra thin fluid actively penetrates and "creeps" into the tightest seams, lap joints, micro cracks, and around rivet heads leaving a non-greasy, atmospheric barrier to protect base metal. It will not dry out or trap moisture in. Rather, ACF-50 displaces moisture and other corrosive fluids (de-icing, toilet, acids, road salt, soft drinks, OJ, coffee) in corrosive prone areas.

With a variety of application methods available, from direct spray to external fogging, ACF-50 is safe and easy to use.

PREVENTS & DEACTIVATES CORROSION

ACF-50 kills corrosion on contact and chemically neutralizes the corrosive effects preventing new corrosion from forming.

Pretreatment prevents formation of new corrosion cells.

Untreated Panels corrode rapidly.

Where corrosion is already evident, ACF-50 will inhibit further progress stopping the corrosion process on contact.

AIRCRAFT PROTECTION FOR YOUR RIDE

... Motorcycle, Car, Camper, ATV, UTV, etc.

ACF-50 is safe to use on paint, most rubbers and is excellent on plastic trim, leaving no silicon residue. It can be sprayed directly into electrical connections and components to prevent corrosion induced failures. Use it before seasonal storage for continuous protection moisture and condensation.

In fact, ACF-50 is safe to use anywhere (except brake pads & rotors) and using ACF-50 as preventive maintenance will keep your ride fine-tuned while increasing reliability and value.

PROVEN PROTECTION

ACF-50 is the first choice for anti-corrosion. The US Government, FAA, commercial airlines, fleet operators, and general aviation users rely on its tough anti-corrosion protection. Only ACF-50's advanced corrosion control properties protect both the airframe and avionics systems.

ACF-50 meets industry (AIRBUS, Boeing, Douglas, Mil-Spec) anti-corrosion performance requirements and has approvals and authorizations from:

Aerocommander • ATR Regional Transport
Air Tractor • BAE Systems
Boeing Helicopter • Bell Helicopter Textron
Bombardier • British Aerospace
Canadair • Cessna
Cirrus • Concorde Battery
Embraer • Extra Aircraft Enstrom
Gulfstream • Hawker-Beechcraft
Hiller Aircraft • Lake Aircraft
Lockheed Martin • MD Helicopter Mooney
Pilatus Aircraft • Piper
Pratt Whitney • Robinson
Rolls Royce • Sikorsky Schweizer
Vans Aircraft

PROACTIVE SOLUTIONS

Count on NUVITE to deliver the most efficient products & technology available. NUVITE's top quality product line includes compounds, polishes, sealants for bright work and paint care, cleaners for exterior and interior care, along with complementing, professional-level equipment and accessories. Contact our expert technical team about your unique application.
