

- ✓ KILLS Corrosion ON Contact
- ✓ Prevents further Corrosion Degeneration
- ✓ Pretreatment or Post Exposure Application
- ✓ Easy & Safe to Apply
- ✓ Reduces Maintenance & Repair Costs

NUVITE CHEMICAL COMPOUNDS has been a leader in appearance maintenance products for more than 65 years. Our goal as a manufacturer and distributor is to provide the most advanced cleaning and appearance maintenance products available.

NUVITE is a division of UNIVERSAL PHOTONICS INCORPORATED, a manufacturer and global distributor of critical surfacing and polishing materials. UPI's dedication to innovative polishing materials supports NUVITE with state-of-the-art manufacturing facilities and an unwavering commitment to product development.

NUVITE customers can expect fast, dependable service and accurate technical assistance. Please contact our friendly account services team. They will expertly match your needs to a NUVITE solution.

CORROSION BLOCK IS A REGISTERED TRADEMARK OF LEAR CHEMICAL RESEARCH CORP

# CORROSION

- ✓ Marine / Aviation
- ✓ Motorcycles / Automotive
- ✓ Industrial
- ✓ Power Sports

## PROTECTS • PENETRATES • LUBRICATES

CORROSION BLOCK kills corrosion on contact, while its unique chemistry continues to protect metal and electronics from further corrosive degeneration. It is safe, nontoxic, nonflammable, and nonhazardous with a nonflammable aerosol propellant. CORROSION BLOCK's atmospheric barrier protects metal surfaces for up to 18 months.

## HOW IT WORKS

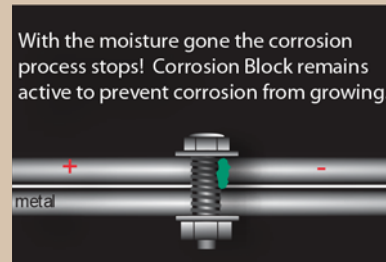

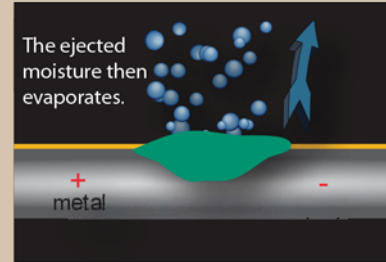

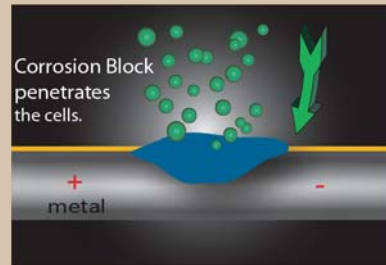

CORROSION BLOCK actively protects metal using advanced polar bonding chemistry. The formula's synthetic additives completely penetrate corrosion cells, displacing and causing moisture and other corrosive fluids to evaporate. A hydrophobic film is left and acts like an "OFF SWITCH" for corrosion, providing further anti-corrosion protection.

Additional additives prevent galvanic action between dissimilar metals like aluminum and steel. CORROSION BLOCK's moisture proofing 40Kv dielectric properties work well on electrical components, preventing and curing common electrical problems.

Depending on application, CORROSION BLOCK can be sprayed, brushed or wiped on. It will not harm plastics or rubber. Metal components are protected down to temperatures of -70° F.

## CHEMISTRY THAT WORKS

## INDUSTRIAL STRENGTH PROTECTION

Being "PRO-Active" about corrosion control is key to productivity and profitability. Adding CORROSION BLOCK to any maintenance schedule protects against the destructive forces of moisture and other corrosive fluids, helping to extend service intervals, reduce downtime, and adding to the bottom line!

CORROSION BLOCK is also extremely helpful for flood recovery. When flood damage occurs, using CORROSION BLOCK early on is critical to minimizing corrosive damage.

## PROVEN PROTECTION

CORROSION BLOCK's unique properties have been put to the test and proven time and again. The list keeps growing!

### INDUSTRIAL

Generators, Alternators, Exhaust Fans, Solenoids, Fuse Panels, AC & Refrigeration Equipment, Motor Operated Valves, Electronics, Fuse Panels, Terminal Strips, Fan Motors, Circuit Boards, Intercom Systems, Junction Motors, Switches, Circuit Breakers, Power Tools, Remote Sensors

### FLEET VEHICLES

Engine, Chassis Electronics, LED Lighting, GPS Systems, Air Valves, Locks & Hinges, Master Connectors, Battery Terminals, Wheels & Hubs, Tank Straps & Fittings, Reefer Unit, Wire Harnesses

### MARINE

Boats, Trailer Lights, Inboard & Outboard Motors, Standing Rigging, Fishing Gear

### RV

Awnings, Steps, Locking Pins, AC Units, Light Sockets

### ATV, UTV, SNOWMOBILES

Shocks, Suspension Fasteners, Electrical Multi-pin Plugs, Cables & Linkages, Engine Castings

## PROACTIVE SOLUTIONS

Count on NUVITE to deliver the most efficient products & technology available. NUVITE's top quality product line includes compounds, polishes, sealants for bright work and paint care, cleaners for exterior and interior care, along with complementing, professional-level equipment and accessories. Contact our expert technical team about your unique application. 800.394.8351
