

ACF-50

ANTI-CORROSION FORMULA

FOR INDUSTRIAL USE, FLEET VEHICLES, MARINE, RV, ATV, UTV, & SNOWMOBILES.

When using any NUVITE product, please refer to appropriate procedures and recommendations for use and equipment, or contact a NUVITE technician for more information, unique applications and special requirements.

METAL SURFACES

1. Remove accumulation of dirt and grease.
2. Spray or wipe on a uniform coating.
3. Apply heavier coat to areas where corrosion is present.
4. Reapply after any solvent cleaning, contact with chemicals/ acids or when metal surface has been severely damaged by abrasions.
