

CitriCut Concentrate

CITRUS-BASED CLEANER FOR WETWASH & DEGREASING

For periodic cleaning of exterior surfaces, debugging & more

WETWASH

1. Dilute **CitriCut Concentrate** 1:12 to 1:20* with water.
2. Apply **CitriCut Concentrate** to surface by spray, mophead or foam pad application.
3. Agitate to loosen soil.
4. Rinse with water

WIPE DOWN/DEBUG

1. Dilute **CitriCut Concentrate** 1:4 to 1:8* with water.
2. Use trigger spray bottle & spray area.
3. Agitate with terry towel sprayed with the same solution.
4. Repeat to remove heavy bug soil if necessary.
5. Wipe dry with dry terry towel.

HEAVY-DUTY CLEANING

1. Dilute **CitriCut Concentrate** 1:2 to 1:8* with water.
2. Allow to soak 15 minutes.
3. Do not allow soaked area to completely dry.
4. Rinse with high pressure water.

DEGREASING

1. Use **CitriCut Concentrate** full strength or dilute up to 1:4* with water.
2. Allow to soak 15 minutes.
3. Do not allow soaked area to completely dry.
4. Rinse with high pressure water.

**Product dilutions are determined by extent, condition & soil type.*
