

## Goodbye-NF

### LAVATORY REODORIZER

For aircraft, RV & portable toilets

### AIRCRAFT SYSTEMS

If lavatory system is severely clogged use NUVITE's **Eliminate** overnight lavatory soak prior to use of **Goodbye-NF**.

1. Use ½ oz\* of **Goodbye-NF** per gallon of water.
2. Charge tanks.
3. Utilize flush mechanism to insure proper distribution of material in lines.

### PORTABLE TOILETS

1. Use 2 – 4oz\* of **Goodbye-NF** per gallon of water.
2. Recharge tanks every 4-6 days depending on load conditions.

*\*Product dilutions are determined by extent, condition & soil type.*

*When using any NUVITE product, please refer to appropriate procedures and recommendations for use and equipment, or contact a NUVITE technician for more information, unique applications and special requirements.*
