

## METAL CARE

- STEP 1:** Apply sparingly with wool compounding pad on circular buffer (1600-2000 rpm).
- STEP 2:** Polish until oxidation & residue disappear, about 60 seconds.
- STEP 3:** Repeat if oxidation cloudiness remains.
- STEP 4:** If swirl marks remain, follow with NUSHINE IIC.
- STEP 5:** Final finish with NUSHINE IIS with random orbital buffer & cotton.

- STEP 1:** Apply sparingly with tufted wool compounding pad on circular buffer (1600-2000 rpm).
- STEP 2:** Polish until oxidation & residue disappear, about 60 seconds.
- STEP 3:** Final finish with NUSHINE IIS with random orbital buffer & cotton.

- STEP 1:** Apply sparingly with cotton flannel rag by hand or with orbital-type power polisher (pad faces covered with cotton flannel sheet).
- STEP 2:** Polish until residue disappears, about 60 seconds.

NUVITE specializes in complete polishing systems. Tell us about your application & we'll put together a set of qualified consumables or have our R&D team develop a customized polishing system unique to your specifications.

# nuimage

### Polish Touch-up

- STEP 1:** Apply "AS IS" (do not dilute) to surface with a clean cotton flannel polishing cloth.
- STEP 2:** Spread material over target polish area, rub until product is removed, leaving a slight haze on the surface.
- STEP 3:** When haze dries polish away with a clean cotton flannel polishing cloth.

### Debugging/Residue Spot Remover

- STEP 1:** Apply "AS IS" (do not dilute) to effected area.
- STEP 2:** Spread around effected area & allow to soak.
- STEP 3:** Remove with gentle rubbing, until spot disappears.

## INTERIOR CARE

### CARPET CLEANER & SPOT REMOVER

#### Hand Cleaning

Clean with up/down, side-to-side action with dry cloth.

#### Machine Cleaning

Use with rotary type, not for use with steam or extraction machine.

#### Spot Cleaning

- STEP 1:** Dilute 1:8 with water in spray bottle. Spray surface, clean with terry towel.
- STEP 2:** Repeat as necessary.

#### Broad Area Cleaning:

- STEP 1:** Clean with up/down, side to side action.
- STEP 2:** Wipe dry with clean terry towel.

- STEP 1:** Pour small amount onto smooth cotton cloth.
- STEP 2:** Apply uniformly over surface area.
- STEP 3:** Use dry, clean cotton towel to polish to soft luster.

### Debugging by Hand

- STEP 1:** Dilute 1:12 with water. Using trigger spray to wet area.
- STEP 2:** Wipe with dampened terry towel. Buff to shine with dry towel. No need to rinse.

### Wetwash

- STEP 1:** Dilute 1:10 with water.
- STEP 2:** Use in pressure system or apply with brush. Rinse.

### Degreasing

- STEP 1:** Apply full strength or dilute 1:4 with water.
- STEP 2:** Allow to soak. Do not allow to dry. Use high pressure spray to blast away loosened grease. Repeat if necessary.

## PAINT CARE GLOSS, POLISH & DRYWASH

\*Product dilution determined by extent, condition & soil type.

### Wetwash

- STEP 1:** Dilute 1:8-1:20 with water. Apply with spray, mop, or cloth.
- STEP 2:** Agitate to loosen soils.
- STEP 3:** Rinse with water.

### Drywash

- STEP 1:** Dilute 1:8-1:12 with water. Apply with spray or mop/pad.
- STEP 2:** Agitate to loosen soils.
- STEP 3:** Wipe with damp, clean towel, frequently turning until surface is dry.

### Hand Wash/Wax

- STEP 1:** Use full strength or up to 1:4 dilution. Apply with spray or mop/pad.
- STEP 2:** Agitate to loosen soils. Do not allow to dry.
- STEP 3:** Hand buff dry.

- STEP 1:** Apply "AS IS" (do not dilute) with towel.
- STEP 2:** Agitate, spreading to very thin layer. Allow to dry.
- STEP 3:** Hand buff to slick, high shine.

- STEP 1:** Apply with terry towel or mophead "AS IS" (do not dilute).
- STEP 2:** Agitate uniformly over surface, spreading material to very thin layer.
- STEP 3:** Allow to completely dry.
- STEP 4:** Using clean towel or mophead, hand buff to slick, high gloss.

- STEP 1:** Pour small amount "AS IS" (do not dilute) onto terry towel.
- STEP 2:** Apply thinly & uniformly over surface.
- STEP 3:** Allow to cure until dry.
- STEP 4:** Hand buff with cotton flannel detailing cloth for extreme gloss.

NUVITE offers a full line of quality products, systems and equipment for Brightwork, Paint Care, Exterior Wash & Interior Care. All NUVITE products have been engineered to meet the most demanding polishing requirements. Count on NUVITE for:

- ✓ TOP PERFORMANCE
- ✓ EXTRAORDINARY RESULTS
- ✓ EXCEPTIONAL PROTECTION
- ✓ LONGER LASTING SHINE
- ✓ ECO-FRIENDLY
- ✓ USER-FRIENDLY
- ✓ COST-EFFECTIVE

NUVITE Chemical Compounds is a global leader in appearance maintenance chemicals, manufacturing and delivering high quality products for 70 years to aviation/aerospace, automotive, marine, rail, RV & power sports. The NUVITE product line delivers everything you need to achieve that most coveted, sought after, "SHOWROOM SHINE!"

NUVITE is a division of UNIVERSAL PHOTONICS INCORPORATED, manufacturer and global distributor of critical surfacing and polishing materials. UPI's dedication to innovative polishing materials supports NUVITE with state-of-the-art manufacturing facilities and an unwavering commitment to product development.

NUVITE customers can expect fast, dependable service and accurate technical assistance. Questions? Contact a NUVITE Field Technical Specialist.
