

CITRICUT

PC2247 Series

CITRICUT is a citrus based cleaner concentrate providing a wide range of airframe and aircraft cleaning capabilities. CITRICUT is used to clean heavy build-up soil conditions on aircraft wheel wells and bellies, and exterior painted and metal surfaces.

APPLICATION

Normal Cleaning: Dilute CITRICUT 1:12 – 1:20 with water. Apply to aircraft surfaces by spray, foam or mop application. Agitate to loosen soil and rinse with water.

Wipe down/Debugging: Dilute CITRICUT 1:12 – 1:15 with water. Use trigger spray bottle and spray area. Agitate with terry towel containing diluted CITRICUT. Wipe dry with a dry terry towel.

Heavy-Duty Cleaning: Use CITRICUT 1:2 – 1:4. Allow to soak approximately 5-15 minutes without allowing to completely dry. Rinse with water using pressure washer under 80 PSI.

For best results, please consult with UPI/Nuvite technical staff for further recommendations, and application techniques.

BENEFITS

- Heavy-duty cleaner effective for cleaning dirt, hydraulic fluids and lubricants
- Environmentally friendly and safe for operator use
- Conforms to airframe OEM standards and specifications

PHYSICAL CHARACTERISTICS

TEST	CITRICUT
Appearance	Orange liquid
pH	11.8 - 12.5
Specific gravity	1.01

AVAILABILITY

55 Gallon, 5 Gallon, 1 Gallon, 1 Quart, 4 oz., 1 oz.
