

ELIMINATE

PC2195 Series

ELIMINATE is a technology-based aircraft lavatory care and ongoing maintenance system. **ELIMINATE'S** toilet additive is specifically designed to break up and disperse all hard to remove residues, mineral scale, and waste by-products. It is formulated to be safe to equipment while dislodging and breaking down lavatory sludge within the system.

APPLICATION

Empty lavatory holding tank, and add **ELIMINATE**. Allow to soak during routine overnight service. Flush all toilet compartments several times during process to ensure that pumps and flush rings are saturated.

After use of **ELIMINATE**, add **GOODBYE NF** lavatory deodorant for bluing and odor control.

For best results, please consult with UPI/Nuvite technical staff for further recommendations, and application techniques.

BENEFITS

- Exceptional dispersing and cleaning performance
- Safe to internal pumps, airport tritcherator and municipal standards
- Conforms to airframe OEM standards and specifications

PHYSICAL CHARACTERISTICS

TEST	ELIMINATE
Appearance	Dark brown liquid
pH	11.8 - 12.5
Specific gravity	1.02

AVAILABILITY

275 Gallon Tote, 55 Gallon, 5 Gallon, 1 Gallon, 1 Quart
