

PCS is a concentrated soil, stain, spot remover, and shampoo for carpets. PCS will clean tar, oil, soil, and organic matter from natural or synthetic carpet.

### APPLICATION

**Spot Cleaning:** Dilute PCS 1:4 – 1:8 with water. Test carpet for color fastness prior to use. Spray terry towel with diluted PCS and apply to soiled spots. Absorb spot with a clean terry towel to dry. For tough stains, spray PCS directly onto spot and use soft brush to agitate. Absorb spot with clean terry towel to dry.

**Rotary Carpet Machine Application:** Follow instructions on machine, using 1:8 to 1:16 dilutions with PCS.

For best results, please consult with UPI/Nuvite technical staff for further recommendations, and application techniques.

### BENEFITS

- Penetrates and removes tar, oil, soil, and organic material
- Effective and unique cleaning action leaves no soapy or tacky residue
- Prevents re-soiling
